

Reactive Stain is a water-based stain specially formulated to create an aged and rustic look on tannin-rich wood in a fast and simple way. It reacts quickly after the application and provides a vibrant and distinctive colour, depending on the type of wood used. Modern and unique colour solutions can be achieved in combination with WOCA air-drying and UV-drying oils.

- **Unique look**
- **Quick colour reaction**
- **The final colour depends on the tannin content in the wood**
- **Must be treated afterwards with WOCA oils**

Application area

For colour treatment of tannin-rich wooden floors, furniture and wall panels.

Work description

Treatment	0
Please note	Can be diluted with water to obtain the desired colour strength. Full colour development within 24 hours.
