

Bees' Wax Balm is for the basic treatment and maintenance of untreated, stained or lye treated wood surfaces indoors (especially for furniture and toys). Bees' Wax Balm is suitable for all wood species. The wax treatment gives the wood a dirt resistant and cleaning friendly surface. Bees' Wax Balm is not suitable for flooring. Bees' Wax Balm is solvent free.

- **For the wax treatment of smaller wood surfaces**
- **Creates a smooth finish on interior woodwork**
- **Water and dirt-resistant**
- **Enhances the natural structure of the wood**

Application area

For the wax treatment of unfinished, stain- or lye treated wood surfaces (typically trays, wood accessories and smaller pieces of furniture).

Work description

Preparation	Before the application of Bees' Wax Balm, the wood must be clean, free from grease and completely dry. TIP: To obtain a hard-wearing surface, rough wood may have an initial finish with oil before it is treated with Bees' Wax Balm. Always remember to test on a less visible spot to check the compatibility of the surface with the product.
Treatment	Apply Bees' Wax Balm with a lint-free cotton cloth in a thin and even layer. After a drying time of approx. 30 minutes the wood may be after polished with a cotton cloth or polishing vlies.

Drying time

Drying time	Approx. 30 minutes.
