

## Vertical Balers

### B-series

## Baler B5 Wide VD

### For large and bulky materials

An extra wide baler designed to handle large and bulky materials. The largest boxes can be thrown right in without being broken down.

### Easy installation and wide application

This baler operates on a single phase power supply, which makes it easy to install in a wide variety of environments.

### Highlights

- High capacity – large output
- Wide filling opening (1 metre)
- Efficient retainers hold compressed material down
- The bale is tipped out automatically
- Front-placed strap rolls for easy strap change
- Operates on single phase power supply
- Complies with EU Safety Standard EN16500
- Powder Coating provides durable finish in many colors.

## Optional Extras

A digital auto lock enables baler loading but restricts access to run a press cycle.

Get online access to your balers with our monitoring system called BRA-IN.

Order balers in a custom colour. Certain parts like top cover remain our standard grey.
