

Vertical Balers

B-series

Baler B5 Wide

For large and bulky materials

An extra wide baler designed to handle large and bulky materials. The largest boxes can be thrown right in without being broken down.

Easy installation and wide application

This baler operates on a single phase power supply, which makes it easy to install in a wide variety of environments.

Highlights

- High capacity – large output
- Wide filling opening (1 metre)
- Efficient retainers hold compressed material down
- The bale is tipped out automatically
- Front-placed strap rolls for easy strap change
- Operates on single phase power supply
- Complies with EU Safety Standard EN16500
- Powder Coating provides durable finish in many colors.

Optional Extras

With our monitoring system BRA-IN you can control and optimize your baler fleet.

Balers are available in other RAL colours which you may choose.

A vertical door frees up space around your baler and lets you load from both sides.
