

Diamond Oil Active is for those who appreciate an incredibly high level of quality when oiling their wood floors and furnitures. This exclusive, single-component, low-odour, extremely hard-wearing floor oil is made from the absolutely finest quality materials, is very easy to work with and assures minimal waste. Diamond Oil Active's unique hyper cross linking technology will give your wooden floor a comfortable, non-slip surface that is extremely water repellent and easy to clean and maintain. The oil has a dry matter content of approx. 99% and is suitable for machine-application when oiling untreated, new or newly-sanded wood surfaces in all species of wood.

- **Resistant to liquids such as water, coffee, tea and wine**
- **Extreme durability and resistance to scratches and marks**
- **Gives the wood a beautiful, breathable surface**
- **Indoor climate certified**
- **VOC-LOW**

AppArea

For untreated, new or newly-sanded wood surfaces

Work_Descrip_Label

Preparation_Label	<p>The wood must be freshly-sanded with grit 100-120 for the final sanding. Product, room and floor temperature must be between 59-86°F. Ensure good ventilation when applying the oil and when it is drying. Wash the surface with WOCA Intensive Wood Cleaner. Leave the floor to dry for at least 8 hours before applying the oil.</p> <p>Always remember to test on a less visible spot to check the compatibility of the surface with the product.</p>
FinalSanding	g100til120
Treatment	<p>Thoroughly shake the container of Diamond Oil Active, both before and during use. Containers with different batch numbers should be mixed to avoid colour mismatch. Apply the oil using a short-bristled paint roller (1/4") in an even coat. Leave the oil to penetrate for 10-15 min. If the oil soaks quickly into the wood, apply more oil. Polish the oil into the wood until the floor appears saturated. Use a buffing machine with a white or beige pad. Remove excess oil with dry, lint-free cotton cloths or pads until the surface no longer appears wet. The surface can be used with caution after 24 hours.</p>
NoteTxt	<p>If an extra-attractive finish and resistance is desired, the floor can be repolished with 1 dl Diamond Oil Active per 10 m² within 8-10 hours of the first application. The oil should be polished thoroughly, as previously described.</p>

DryingTime

DryBetweenCoat	8-10 hours at 68°F
DryingTime	24 hours at 68°F
DryLightUse	24 hours at 68°F
FullyHard	7 days at 68°F
Rec	<p>Do not expose the floor to water or clean it for the first 7 days while the oil is hardening. After 7 days the floor can be cleaned with WOCA Natural Soap, which gives the surface extra protection.</p>

Techdata_label

Density	0.95-1.00 g/ml.
SolidContent	95-100%
ShelfLife	3 years
AppTemp	+59-86°F and approx. 50% air humidity.
