

Master Soap may be used for the cleaning of wood, regardless of wood species and surface treatment as well as for tiles, vinyl and stone surfaces etc. Master Soap is especially suitable for frequently cleaned wood floors. An oiled wood floor which is cleaned with Master Soap should regularly be maintained with Natural Soap or Maintenance Oil/Maintenance Gel to keep its hard-wearing surface.

- Effective care and cleaning of all wood floors
- Particularly suitable for large flooring areas exposed to frequent cleaning
- May be applied both manually and by machine
- Certified by IBR

Application area

For cleaning of wood, regardless of wood species and surface treatment, as well as for tiles, vinyl and stone surfaces etc.

Work description

Preparation	Particularly dirty floors/stains may be cleaned with WOCA Intensive Wood Cleaner. Always remember to test on a less visible spot to check the compatibility of the surface with the product.
Treatment	Mix 250 ml Master Soap with 10 L of warm water for the daily cleaning. Wash the floor lengthwise the wood grain. It is recommendable to use two buckets – one with the soap solution and one with clean water. It is important that no water is left on the floor. Use possibly little water to obtain a satisfactory result.
Note	Don't use 100% microfiber.

Drying time

Technical data

Declaration	Water, 5-15% soap, <5% non-ionic surfactants.
Density	1
pH-value	9,4-10
Shelf life	36M
Coverage	320-400 m ² /L, depending on wood type and surface.
Colours	Natural
Cleaning of tools	With water and soap.
Storage	+10-25°C. Keep out of reach of children. Do not expose to heat (e.g. sunlight). Store frost-free during winter and cool during summer.
Packaging	5 L
Authorisations	IBR, EN 71-3:2013
