

Furniture Lacquer is a strong lacquer with high chemical resistance used to achieve a natural and attractive look. It is ideal for furniture with high needs for durability, resistance and functionality, for example tables in restaurants, pubs and hotel rooms. It can be applied in many different ways and is very easy to work with.

- **Non-toxic polyurethane-based lacquer**
- **Safe for food contact**
- **Fast-drying and easy to apply**
- **Good chemical resistance and excellent durability**
- **Complies with EN 71-3 for use on children's furniture and toys**

Application area

For lacquer treatment of furniture made of hardwood, softwood, solid wood and veneer.

Work description

Please note The quality and uniformity of the wood and of the intermediate sanding are crucial to the final surface finish. After sanding remove residue as prescribed.
