

Intensive Wood Cleaner is a product that has been specially developed for the cleaning of all indoor wood surfaces, such as furniture, floors, kitchen tables etc. and can be used on untreated, oiled or polyurethane surfaces. Intensive Wood Cleaner is a priming cleaner, that can be used on particularly stubborn stains or before a surface is treated with for example oil, polyurethane or soap.

- **For unfinished, oiled, waxed, polyurethane or soaped indoor wood surfaces**
- **Prepares surfaces for additional treatment**
- **Basic cleaning and grease removal**
- **High efficiency**

## AppArea

Cleaning of new, untreated, sanded and treated wood. Ideal for all species of wood.

|-------------------|--|
| Preparation_Label | Use WOCA Wood Stain Remover for particular stubborn stains.<br><br>Always remember to test on a less visible spot to check the compatibility of the surface with the product.  |
| Treatment         | <p>Light treatment:<br/>Mix Intensive Wood Cleaner and warm water. See mixing ratio below. Wipe the wood surface with a well-wrung mop. Let the surface dry completely before subsequent treatment.</p> <ul style="list-style-type: none"><li>- Untreated, soap-treated or oiled surfaces: Mix 6 fl. oz. of Intensive Wood Cleaner with 1 gallon warm water.</li><li>- Polyurethane and painted wood surfaces: 1) Mix 3 fl. oz. of Intensive Wood Cleaner with 1 gallon warm water.</li></ul> <p>Optimal result:<br/>For best results, use two buckets: one with soap water and the second with clean water to rinse the dirty mop.</p> <ul style="list-style-type: none"><li>- Untreated, soap-treated or oiled wood surfaces: 1) Use Intensive Wood Cleaner in the same way as for normal washing and leave to work for 5 minutes before wiping down with clean water. Alternatively, use a hand-held pad or a machine, then dry any excess wood cleaner with a cloth or mop. For heavy soiling, repeat wash if necessary. 2) Let the surface dry completely before subsequent treatment. 3) Intensive Wood Cleaner leaves treated surfaces completely free of soap or oil, so they should be re-treated with Natural Soap or Diamond Oil Active.</li><li>- Polyurethane or painted wood surfaces: 1) Use Intensive Wood Cleaner in the same way as for normal washing. It is important to use a tightly wrung mop or cloth, in order not to leave a wet surface. Wipe down with a dry cloth afterwards if necessary. Repeat wash if necessary. 2) For re-treatment of lacquered floors, you should use Master Cleaner or Master Care.</li></ul> |
| NoteTxt           | This product is NOT to be used for regular, everyday cleaning.   |
